THE WORKFLOW

More clarity. Same character.

A thoughtful edit, grounded in what your page already knows.

- 01 **Understand the original**
Extract sections, source statements, and page metadata.
- 02 **Find the opportunities**
Score every target query with P1 and inspect the source evidence.
- 03 **Make it more useful**
Review a content proposal, with structural changes under your control.

Built for exploration

Top recruiting firms for sales roles in the Fintech industry
leading Miami tech sales recruitment services
NY top recruitment agencies
top-rated recruiting agency SF
best tech sales recruiters Denver

One query per line, up to 20. Duplicate queries are counted once. P1 scores every query; P2 considers the complete set in one proposal.

Analyze content

Extraction uses the research retention parser. P1 uses the frozen research model across all target queries; optional rewriting uses OpenAI. Editorial grades are mocked. P1 scores do not predict citation uplift.
